

# MUQUETA NA OREIA

"New ears for new music"

Friedrich Nietzsche

The Muqueta Na Oreia stands out for its identity and attitude, a true differential in the current music market. Ramires (vocals / percussion), Bruno Zito (guitar), Cris (bass / backing vocals) and Henry (drums) totally escape the comfort and mediocrity, bringing innovative ideas, making the personality of the band remarkable.

With more than ten years of road, the band grew, gained respect, established its name and won a legion of fans, with devastating performances and excellent reviews of the albums "Lobisomem em Lua Cheia (Werewolf in Full Moon)" and "Blatta". Muqueta Na Oreia has already had the chance to share the stage with renowned names such as Korzus, Raimundos, Made in Brazil, Dead Fish, Claustrophobia, Project46, JohnWayne, Olho Seco, among others, as well as headliner shows. The band has just released their new single "Samba de Maria".

With all this baggage experience, Muqueta Na Oreia is prepared to take even higher flights. The sound of the group is original, with Brazilian identities, cultures, language, people and blood.
